

The image shows the exterior of a large industrial building with green corrugated metal siding. A white sign on the roof features a red logo consisting of a stylized 'H' inside a circle, with the words 'HYDROTEK ENGINEERS' in bold blue capital letters below it.

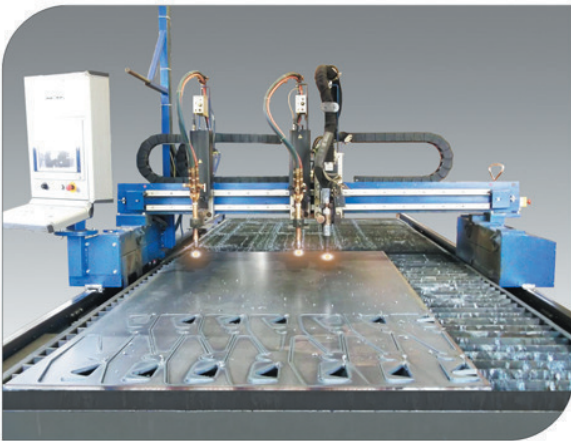

HYDROTEK ENGINEERS

About Us...

Hydrotek Engineers is a well known manufacturer, supplier and exporter of heavy duty engineering components and material handling equipments. Hydrotek Engineers provides comprehensive solutions for adaptation of various attachments like Hydraulic Breaker (Hammer), Hydraulic Cutter, Clam Shell, Hydraulic Shear, Auger, Excavator Bucket, Crusher, etc on Excavators and Loader Backhoes.

At Hydrotek Engineers we manufacture products as per customer requirements and install the same at sites all over India and across Asia Pacific.

Our Infrastructure...

To ensure systematic & process driven manufacturing, we have established a big infrastructural setup. This unit is installed with the advanced cutting edge machinery and tools in order to meet the urgent needs of our customers in shortest possible time.

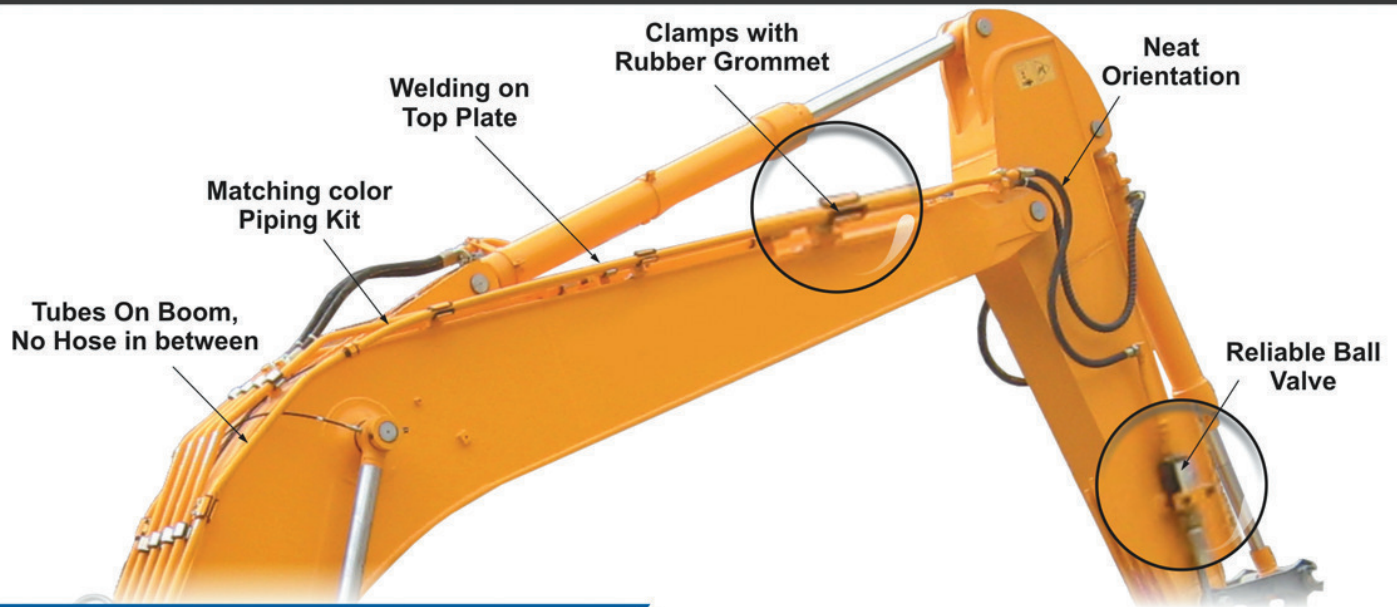

All manufacturing activities are carried out in this unit to ensure precise manufacturing with optimum efficiency so as to deliver products of highest quality standards.

Our Team...

Our team is a group of talented and highly qualified professionals who believe in providing superior quality products to our customers.

Our team works in close co-ordination with the customers to cater to their specific requirements & deliver products with highest quality and within the given time frame.

Hydraulic Piping Kit...

- ◆ Piping Kits are manufactured using supreme grade components and contemporary techniques under the vigilance of adept engineers
- ◆ Hydraulic Adaptation Kit can fit various attachments like Rock Breakers, Augurs, Pulverizers and Crushers on Hydraulic Excavator or Loader Backhoe
- ◆ Powder coated tubes to match equipment color and neat orientation

Accumulators & Filters...

- ◆ Return Line Filters reduces the contamination in the hydraulic system
- ◆ Increased life of hydraulic components
- ◆ High and low pressure accumulator help in reducing hydraulic fluctuations in the system
- ◆ Better life of hydraulic cooler and hydraulic pump

Hydraulic Valves...

- ◆ Flow divider valve for Backhoe loader machine
- ◆ Pilot flow controller to reduce flow
- ◆ Flow merging from two or more pumps
- ◆ Spool valve for breaker application
- ◆ Hydraulic valves are available for various applications

Excavator Bucket...

- ◆ Designed and developed mainly for Granite and Mining applications
- ◆ Available for Excavator from 7T to 40T and upwards. Also available as GP, HD, Extra HD, Block Excavation Bucket and Trenching Bucket
- ◆ To increase economic life, we use extra side cutters, internal wear ribs, extra wear ribs on back plates, Hardox 400 cutting edge and HD Tooth Points and adapters
- ◆ Customized buckets manufactured as per requirement

Concrete Bucket...

- ◆ Manufactured using high grade material and is in compliance with the industry standards
- ◆ Available in various shapes and sizes like Banana shape, Angular Concrete Buckets and Straight Concrete Buckets

Ripper Tooth...

- ◆ Breaks hard rocky ground prior to loading the bucket on to the excavator
- ◆ Reduces cycle time, wear on bucket and most economical option in tough ground conditions
- ◆ Suits wide range of Excavators from 7T to 60T operating weight

Pedestal Boom...

- ◆ Breaks oversized rocks and eliminates blocking, maintains uninterrupted flow of material to the crusher
- ◆ Reduces crusher downtime
- ◆ Heavy-duty construction enhances reliability, assures long and trouble-free operation
- ◆ Power units to suit specific application
- ◆ Custom designed systems to match exact requirements

Quick Coupler...

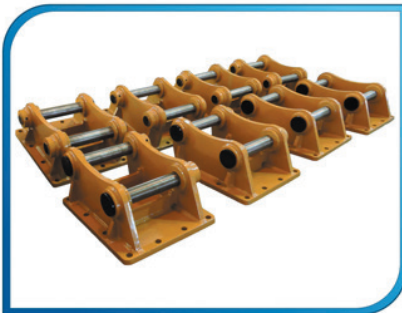

- ◆ Coupler is an ideal tool to mount various attachments on excavator with ease
- ◆ Auto safety locking cylinder
- ◆ Main cylinder with built-in safety check valve
- ◆ High strength wear resistance material and high pressured cylinder provides excellent durability and performance

Mounting Bracket...

- ◆ Brackets are compatible with all attachments for the installation on Excavators
- ◆ Available in Custom made, Universal type and Tuck-In type, etc.
- ◆ Manufactured using high quality steel and best manufacturing techniques

Our Global Presence

Hydrotek Engineers

Gat No: 679/2/3, Chakan-Alandi Road, Village: Kuruli, Taluka: Khed,
